

## Non-Profit Booth Information

The Newport Farmers Market has limited space for Non-Profit groups in our winter and summer markets.

NFM limits booth participation to partnerships which align with our mission. We ask that partnering organizations have a **501(C)3 non-profit status**, and have their major focus in at least one of these areas:

- Promotion of consumer support for local agriculture
- Development of distribution channels for farm direct products
- Preservation and stewardship of farmland
- Food policy advocacy focused on our region's agricultural community
- Food and nutrition with an emphasis on local agriculture
- Public outreach regarding sustainable agricultural/gardening practices

Organizations meeting our criteria may be scheduled for one or more dates per season at each market as space allows. The Newport Farmers Market operates rain or shine and requires that your booth be staffed for the entirety of the market. Failure to arrive on-time or leaving early may impact your ability to participate in future markets.

Community groups who participate at the market are **NOT ALLOWED** to:

- Trade or transfer their scheduled date to another group without the consent of NFM staff;
- Sell items from the booth with the exception of raffle tickets. Donation jars are allowed.
- Be political or religious in a partisan manner (political issue advocacy is allowed as is a religious organization conducting education and outreach with non-religious messages);
- Leave the market early unless special permission is granted from market management
